

QUICK TIP

Circles From Squares—Decal Edition

ABOVE: Projects made with Fusible Decal Paper and pre-printed Milestone Decals shown with unfired and fired decals.

1 Follow the directions in [Quick Tip: Circles from Squares](#), but scale up by cutting sheet glass cut into 1" squares. You can substitute two pieces of 3 mm sheet glass for a single 6 mm piece.

2 Stack, space at least 1" apart and fire. The finished diameter of these pieces is around 1.75".

3 Apply decal imagery as directed by the manufacturer, then fire!
